

Synergy is tapping into the world of athletics, sharing the performance benefits of their products with professional and recreational competitors alike.

"In stage races, ProArgi-9+ helps me maintain normal muscle function, and helps me fight tiredness and fatigue." said Matthias Brändle, professional cyclist, Austrian Champion and Tour de France Stage winner, "This is what makes the difference for me."

- World WKC Kata Champion 2014
- World Kumite Karate Champion 2014
- WKC Silver Medalist 2014
- WKN European Full Contact Kickboxing Champion 2014
- WKN Draw for K1 World Champion 2014

"Many people ask how I have the energy to compete and train," said Cathy, "Synergy's range of products has made a big difference for me."

For ultramarathon runners, 26.2 miles is just the beginning - many races ranging from 31.1 miles to hundreds of miles. "When I started to train harder, I changed my diet and Synergy's products helped a lot," said Marcel Höche. "I use Mistica daily and I like e9 a lot! It has everything I need in a tough situation - minerals, energy and amino acids. It really is a perfect mixture of everything that I need to perform well."

"Everything to do with windsurfing is physically demanding," Zara Davis, Windsurfing World Champion said. "The hardest thing is balance and stability. You use every muscle in the body all the time. For this reason, it's extremely demanding on the cardiovascular system." Zara uses ProArgi-9+, e9, Chlorophyll and Mistica daily.
