

BUSINESS OVERVIEW

Legacy Network enables men and women with the entrepreneurial spirit access to the promise and power of business ownership. We remove barriers of the past and equip our members with a complete business system, from start to finish—with the training, tools, mentoring, product line, and operational support needed to significantly improve their economic well-being and quality of life.

HOW DO I BUILD A SUCCESSFUL BUSINESS?

Our building plan is called a 2+2 in 2, which simply means the challenge is to enroll two participants into the Elite Health Challenge (“2”) and two business partners into the Elite Business Challenge (“+2”), preferably within two weeks (“in 2”). That's it. As you build your small team of entrepreneurs, who also build small teams of entrepreneurs, and each uses and shares our high quality, scientifically proven products, your income grows.

WHAT DOES IT COST?

Business start-up costs are about \$400, with a monthly overhead between about \$220 to \$315, depending on the products you choose for a monthly order (this order qualifies you to earn commissions).

WHAT IS THE INCOME POTENTIAL?

As with any real business, success with Legacy Network takes focused consistent work. Although the Building Plan (2+2 in 2) puts you on track to earn Month 1: \$496, Month 2: \$822, Month 3: \$4,576, Month 4: increasing income each month thereafter, there is no guarantee of income.

WHAT IS THE LEGACY NETWORK BUSINESS SYSTEM?

Legacy Network's distinguishes itself most by the Business System we provide to our members. This entrepreneurial engine provides leadership development, business start-up training, marketing tools, back office dashboard and app, mentoring and support—all to enable members to successfully build a large network.
