BIOME BALANCE

Contains 333 mg of Berberine per serving, a natural extract of Indian barberry root that supports gut health and microbiome balance.

BIOME BALANCE
Metabolic & Microbiome
Performance

Net Weight
90 Capsules

Berberine is a natural extract of Indian Barberry root, a key extract for the clinically studied Fortify program. Berberine may support gut health and microbiome balance by combating endotoxins which can interfere with gut performance and glucose metabolism*. A balanced microbiome can contribute to healthy metabolic function*. Berberine also supports healthy insulin response and already healthy cholesterol and triglyceride levels for healthy metabolic function*.

BENEFITS

- Combats endotoxins, which may interfere with gut performance and glucose metabolism*
- Supports gut health*
- Supports healthy insulin response*
- Supports already healthy cholesterol and triglyceride levels*
- Gluten Free | Vegan | Non-GMO

RECOMMENDED USE

Take one capsule before a meal, 3 times daily.

Supplement Facts	
Serving Size: 1 Capsule Amount Per Serving	
Berberine (from Indian Barberry)	333 mg
% Daily Value*	66.6%
Other Ingredients: Vegetable capsule (hypromellose, water), cellulose (GMO), magnesium stearate (vegetable), silicon dioxide.	

*In vitro and clinical studies show potential for berberine to support metabolic health, including cholesterol, triglyceride, and insulin response. These statements have not been evaluated by the Food and Drug Administration. Berberine is not intended to diagnose, treat, or prevent any disease.
