

BLOOD SUGAR

BLOOD SUGAR CLINICAL DATA

HOW INTESTINAL BACTERIA CAN AFFECT YOUR BLOOD SUGAR AND LIPID LEVELS

“Researchers... analyzed the influence of intestinal bacteria on sugar and lipid metabolism. They found that certain bile acids that are produced by intestinal bacteria could influence blood sugar levels and lipid concentrations as well as part of their molecular mechanisms.”

“Researchers are expecting to find future treatment options for metabolic diseases such as diabetes by targeting the intestinal bacteria that produce these specific strains of bile acids in order to maintain blood sugar homeostasis.”

MECHANISMS LINKING THE GUT MICROBIOME AND GLUCOSE METABOLISM

“...Existing data strongly suggest that the gut microbiota affect glucose homeostasis. Possible mechanisms linking the gut microbiota to glucose homeostasis may include increased intestinal permeability, low-grade endotoxemia, changes in the production of SCFAs or branched-chain amino acids, alterations in bile acid metabolism, and/or effects on the secretion of gut hormones.”

PRODUCTS/INGREDIENTS THAT SUPPORT BLOOD SUGAR HEALTH

PURIFY KIT

The Purify Kit is the cornerstone of all elite health goals! It begins with a one-week purification step and is comprised of patented products clinically tested to give your microbiome the overhaul it needs to start clean and fuel good health.

PROARGI-9+

- Supports cardiovascular health
- Enhances blood flow to vital organs
- Combats the negative effects of premature cardiovascular aging
- Sweetened with Xylitol to enhance oral health
- May aid in decreasing body fat
- Anti-aging benefits
- Maintains healthy blood sugar levels already in normal range
- May boost energy levels

BIOME DTX

- Detoxifies, cleanses, and balances the microbiome
- Lubricates digestive tract to facilitate contaminant elimination*
- Activates enzymes to target contaminants*
- Supports healthy bacteria with pH-balancing fermentable fiber*
- Supports healing of the digestive lining with L-glutamine*

BIOME BALANCE

- Combats endotoxins, which may interfere with gut performance and glucose metabolism*
- Supports gut health*
- Supports healthy insulin response
- Supports already healthy cholesterol and triglyceride levels*
- Gluten Free | Vegan | Non GMO

BIOME SHAKE

- 20 grams of vegetable protein per serving
- Promotes a feeling of fullness
- Gluten free
- Certified vegan
- Delicious vanilla flavor

BODY PRIME

- Supports cleansing and bowel motility*
- Magnesium helps maintain healthy electrolyte balance and reduce fatigue
- Contributes to muscle function including the heart muscle
- Contributes to normal muscle contraction including normal heartbeat

CHLOROPHYLL

- Cardiovascular support
- Blood cleansing
- Immune enhancement
- Increased intestinal health
- Overall increased sense of well-being
